

## ***AED Purchasing Information***

The Queen's Heart Safe Program is a collaboration between Queen of the Valley Medical Center and Via Heart Project in an effort to provide automated external defibrillators (AEDs) and CPR training to all businesses, organizations, and schools in Napa County with the goal of making Napa County Heart Safe.

By becoming a Queen's Heart Safe Partner, you will receive discounted rates on AEDs and on-going maintenance services designed to keep your AED compliant with state regulations and ready for use at any time.

### **Becoming a Heart Safe Partner:**

1. To purchase your AED visit the Via Heart Project website and go to the Queen's Heart Safe Order Page. [viaheartproject.org/queen-heart-program-orders/](http://viaheartproject.org/queen-heart-program-orders/)
2. Via Heart Project staff will help you determine the correct number of AEDs and suggest locations in your facility.
3. Employee CRP/AED training is the next step. Training can be booked through the Queen's Heart Safe Order Page, or by contacting Via Heart Project at 1-800-284-0125 or emailing [info@viaheartproject.org](mailto:info@viaheartproject.org). Please note - there is an additional cost for training.
4. Next, you will appoint a site contact who will receive monthly emails and be responsible for the monthly AED readiness check. Please provide Via with the name, email, and phone number for this person.
5. Once your order has been received, Via Heart Project will ship you a wall cabinet and a 3D wall sign. You are responsible for installing these in the suggested location(s).
6. When the cabinet has been installed, your AED(s) will be shipped or delivered to your site. Once the AED has been received, it should be placed into the cabinet and staff should be notified about the AED placement. At that time, the site contact can perform the first readiness check for the AED(s).
7. You will be provided with Policy and Procedure documents for your facility. Make any necessary adjustments and keep on-site. These documents will also always be available online.
8. We will register your AED(s) with the County Emergency Medical Services Agency (EMSA).

# Queen's Heart Safe Program

## Heart Safe AED Package: \$1,995

- Physio Control LIFEPAK CR2 AED with 8 year warranty
- Semi Automatic, English, Wireless Connectivity, CPR*insight*, and carrying handle
- Battery and pads installed, and a spare set of pads
- Pediatric Button, *no need for pediatric pads*
- Wall cabinet (\$200 value), wall sign, site assessment, policy and procedures, and emergency rescue kit
- AED Self-monitoring
  
- Includes first year of Maintenance Services, *described below*

### Customizable CR2 Options

- Fully Automatic (additional \$100)
- Carrying Case (additional \$100)
- Bilingual option to toggle between English/Spanish (additional \$75)

## Via Heart Project - Heart Safe Annual Maintenance Program:

Annual Maintenance Program helps to ensure the AED is ready for use and compliant with regulations. The first year is included in the AED package. After the first year, the program is \$200 per AED annually. Included in Via's Annual Maintenance Program:

- We monitor the expiration dates of the AED's batteries and electrodes so you don't have to.
- When your battery or electrodes expire - we replace them at no additional cost.
- Your battery and pad replacements are FREE if your AED is used in an emergency.
- Our Medical Director provides initial and ongoing oversight for your AED Program.
- Upon use of your AED, we will collect the event data and it will be reviewed by our Medical Director.
- To ensure compliance with state regulations, we will register your AED with local EMS and PSAP.
- We track your AED's serial number and will assist you if it is recalled or requires an upgrade.
- Your designated site contact will receive a monthly email reminder to check your site's AED. Via Heart Project will work with your staff to ensure checks are completed and your AED stays in compliance.
- We will help you monitor your employees' CPR/AED training certification dates.

## Additional Services Offered

- ❖ American Heart Association CPR/AED or First Aid training classes are available upon request.
- ❖ Existing AEDs are eligible to acquire maintenance services. Price varies by unit.
- ❖ Pricing is subject to change.

## Agreement

Upon joining the Heart Safe Program, your agency agrees as follows:

By submission of this agreement, your agency affirms it will comply with all requirements of California Health and Safety Code 1797.196 either by joining the maintenance program or maintaining compliance independently.

The agency and its agents and employees waive any and all claims they may have at any time against the Queen of the Valley Medical Center and Via Heart Project and their agents and employees to any civil damages resulting from or connected to this program, including but not limited to, the requirements of California Health and Safety Code Section 1797.196, the use, misuse, installation, operation, or maintenance of AEDs, or in the training to or rendering emergency care using AEDs (collectively "Claims"), excluding those Claims resulting from the gross negligence or willful or wanton misconduct of the Queen of the Valley Medical Center or Via Heart Project.

In the event of a Claim against Queen of the Valley Medical Center or Via Heart Project (and its agents and employees) not resulting from gross negligence or willful or wanton misconduct of Queen of the Valley Hospital or Via Heart Project, the agency will defend and indemnify both Queen of the Valley Medical Center and Via Heart Project from all damages (of whatever kind or nature) and defense costs (including attorney's fees and experts fees) incurred by it.

In any dispute arising out of or connected with this application and agreement, the prevailing party will be entitled to reimbursement of its attorney's fees and costs incurred.

This person signing below is authorized to act on behalf of the agency and to bind this agreement.
