Via Heart Project is a California based 501(c)(3) non-profit organization dedicated to the awareness, education, treatment, and prevention of sudden cardiac arrest. We advance our mission worldwide via community outreach, CPR training, automated external defibrillator (AED) placement and maintenance, and teen cardiac screenings.

Our AED Maintenance Program eliminates worry and guesswork

Already have an AED?

Existing AEDs are eligible to acquire maintenance services.

Contact info@viaheartproject.org for details.

Via Heart Project is a 501(c)3 non-profit organization, based in San Francisco, managing AEDs throughout the world.

Contact info@viaheartproject.org with any questions or to place an order.

Pricing is subject to change.

Included in our Annual Maintenance Program:

- We monitor the expiration dates of the AED's batteries and electrodes so you don't have to.
- When your battery or electrodes expire –we replace them at no additional cost.
- Your battery and pad replacements are FREE if your AED is used in an emergency.
- Our Medical Director provides initial and ongoing oversight for your AED Program.
- Upon use of your AED, we will collect the event data and it will be reviewed by our Medical Director.
- To ensure compliance with state regulations, we help register your AED with local EMS and PSAP.
- We track your AED's serial number and will assist you if it is recalled or requires an upgrade.
- Your designated site contact will receive a monthly email reminder to check your site's AED. Via will work with your staff to ensure monthly checks are completed and your AED stays in compliance.
- We'll help monitor your employees' CPR/AED training certification dates.

Minimal Investment. Priceless Peace of Mind.

Our maintenance program, renewable annually, is \$250 per year for most models.
